

W&H PROPERTIES WELCOMES TOP BROKERS TO THE

EMPIRE STATE REBUILDING

W&H Properties welcomed over 350 top brokers to the stunning 61st floor of the Empire State Building on September 24th to celebrate the latest improvements in the \$550 million Empire State ReBuilding Program.

Guests were treated to a first look at one of New York City's most important Art Deco masterworks – the faithful recreation of our lobby's aluminum and 23-karat gold leaf "celestial" ceiling mural, hidden from view for over 40 years and unveiled that day. The ceiling is part of the more than \$12 million upgraded and restored lobby, with dedicated tenants/tenants' visitors-only lobby areas on 33rd and 34th Streets with new 34th Street Visitor Reception Desk. Guests also were first to see our new collection of pre-builts, including our first LEED Platinum candidate pre-built, and our first fully complete new common area hallways.

Since our introduction of the Empire State ReBuilding on October 30, 2007, the Empire State Building has reached the highest levels of leasing performance in New York City - success that will continue with new leasing agents William G. Cohen and Ryan O. Kass of Newmark Knight Frank. With \$13 million available to pay in commissions on a variety of available pre-built suites from 2,800 to 6,000 square feet, build-to-suit spaces from 10,000 to 25,000 square feet and full floors from 25,000 to 50,000 square feet, we encourage you to come see the world's most famous office building and give us the chance to compete for your business.
